Subject: Summer Research Fellowship (SRF) and Overseas Research Fellowship (ORF) Schemes 2018 for Science Students

To: Non-final year science students

Summer Research Fellowship (SRF) and Overseas Research Fellowship (ORF) Schemes 2018 for Science Students

The Faculty of Science is now launching (1) Summer Research Fellowship (SRF) and (2) Overseas Research Fellowship (ORF) Schemes to outstanding non-final year science students to gain research-based learning experience.

1. Summer Research Fellowship (SRF) Scheme

Students awarded with SRF are expected to work in the Faculty on a specific research project for at least 2 months during summer 2018. Successful applicants will be awarded with a stipend of HK$16,000 for their summer research work.

2. Overseas Research Fellowship (ORF) Scheme

Students awarded with ORF are expected to conduct research projects under supervision by faculty members of overseas universities or institutions and an internal supervisor in HKU for at least 2 months during summer 2018. Successful applicants will be awarded a stipend of HK$16,000, plus airfare on a reimbursement basis.

Applicants of either scheme have to approach prospective supervisors, who are at the rank of assistant professor or above, for research opportunities and recommendations. Upon completion of the research, students are required to submit a report and conduct a poster presentation on the research work in October 2018. The best poster presenters will have to give a presentation at a research colloquium organized by the Faculty in October/November 2018.

Eligibility

Non-final year science undergraduate students (both BSc and BSc(ActuarSc)) are eligible to apply. Students are advised to approach their prospective supervisors for recommendation before submitting their applications. Applicants will be selected based on a) academic merits, b) quality of the research proposal, c) recommendation of the prospective supervisor and d) interview performance.

To better prepare students for conducting research, students who participated or will participate in SRF/ORF Scheme must take and pass SCNC3111 Frontiers of science honours seminar course. Course description can be found at http://webapp.science.hku.hk/sr4/servlet/enquiry?Type=Course&course_code=SCNC3111.

Given the limited quotas and to allow more students to have this valuable research learning experience, past participants of SRF/ORF Scheme cannot apply for the same fellowship scheme which they had previously participated.
(Exception: Students pre-accepted to the ‘Young Scientist Scheme (YSS)’ have been guaranteed of a place to participate in the SRF Scheme in the summer after the completion of their first year of study, and have further opportunities to participate in other undergraduate research schemes (such as another SRF or ORF) in subsequent years subject to satisfactory academic performance.)

**Recognition**

Performance of students will be continually assessed by their research supervisors. The Faculty reserves the right to withdraw the fellowship offered to the students if their performances are unsatisfactory. The participation in the SRF/ORF Scheme will be recognized in students’ academic transcripts if students complete the project with satisfactory performance and fulfill the aforementioned requirements.

**Application**

Completed application form countersigned by the prospective supervisor has to be submitted with a recommendation letter and a research proposal (not more than 500 words on ONE A4 sized paper) to Ms Sarah Leong of the Faculty Office on or before February 12, 2018 (Monday). Late application will not be considered. Applicants will be invited to an interview.

**Note for Overseas Research Fellowship (ORF) Scheme:**

1. Application will be confirmed upon receipt of prospective supervisor’s recommendation letter.
2. Accepted applicants are reminded to ensure the validity of their passport, visa and insurance before engaging in the programme.

**Interested students are invited to attend a briefing session of the SRF and ORF Schemes 2018 for Science Students on January 17, 2018 (Wednesday) at 3:30 pm at TT404, T.T. Tsui Building.** Please register at [https://hkuems1.hku.hk/hkuems/ec_hdetail.aspx?uid=53768](https://hkuems1.hku.hk/hkuems/ec_hdetail.aspx?uid=53768). For enquiries, please contact the Faculty Office by email at science@hku.hk or by phone at 3917 2683.

Thank you.

Best regards

(Dr) Thiyagarajan Vengatesen (Rajan)
Assistant Dean (Experiential Learning)
Faculty of Science, HKU
