THE UNIVERSITY OF HONG KONG
Undergraduate Research Fellowship Programme (URFP) 2017-18
Faculty of Science

A. Objective and Overview

The URFP is a prestigious programme aimed to enhance students’ learning experience and to nurture the next generation of researchers/scholars. It offers opportunities for academically outstanding students to undertake research under the guidance and supervision of academic staff who have a strong research track record and experience in training research postgraduate students. Students enrolled in the URFP are required to undertake a research study. Research internship may form an essential part of such a research study, if determined by the supervisors concerned.

B. Eligibility Criteria

The following are eligible for participating in the URFP:

(a) Students who are in the 95th percentile of top students in a study programme;
or
(b) Students admitted under the 4-year curriculum who have a cumulative GPA of 3.60 and above.

C. Year of Study

Students generally enroll in the URFP in their final year of study (in 2017-18). Flexibility is provided for cases with strong research interest and potential are identified earlier than the final year.

D. URFP Components and Postgraduate Courses for attendance

</table>
• ENVS4999 Environmental science project
• MATH3999 Directed studies in mathematics
• MATH4999 Mathematics project
• PHYS3999 Directed studies in physics
• PHYS4999 Physics project
• STAT3799 Directed studies in statistics
• STAT4799 Statistics projects

Non credit-bearing components:

Summer research internship in summer 2017: As determined by the supervisor, student can undertake a research project in the Faculty or in an overseas university/institution under the supervision of a faculty member for at least 8 weeks in summer. Its nature is similar to the Faculty existing Summer Research Fellowship/ Overseas Research Fellowship Scheme: http://www.scifac.hku.hk/ug/current/ug-research-exchange-others/research/experience

Undergraduate Research Colloquium: participate in poster presentation and research colloquium to share the research findings with others

Postgraduate courses and other seminars available for attendance:

STAT7614 Advanced Statistical Modelling
STAT7615 Advanced Quantitative Risk Management and Finance
Selected courses offered through the Joint Centre for Advanced Study (JCAS) (http://www.jcas.hk) with the list of courses to be confirmed

Title of study programme: **6729 BSc in Actuarial Science**

Credit-bearing components:

**For 4-year curriculum:**
Project course (6 credit) in the 3rd or 4th Year in 2017-18:
STAT4798 Statistics and actuarial science project

Non credit-bearing components:
Summer research internship in summer 2017: As determined by the supervisor, student can undertake a research project in the Faculty or in an overseas university/institution under the supervision of a faculty member for at least 8 weeks in summer. Its nature is similar to the Faculty existing Summer Research Fellowship/ Overseas Research Fellowship Scheme: http://www.scifac.hku.hk/ug/current/ug-research-exchange-others/research/experience

Undergraduate Research Colloquium: participate in poster presentation and research colloquium to share the research findings with others

Postgraduate courses and other seminars available for attendance:
STAT7614 Advanced Statistical Modelling
STAT7615 Advanced Quantitative Risk Management and Finance

E. **Deliverable(s)**

All students enrolled in the URFP will be required to produce a research deliverable, e.g. dissertation, research paper, etc. for assessment.
Students are required to fulfill the assessment of the course by submitting a report/thesis and give oral presentation/seminar.

Also, students are required to participate in the Undergraduate Research Colloquium by conducting a poster presentation and a research colloquium organized by the Faculty.

F. Supervisory Arrangements

Applicants have to approach prospective supervisors for research opportunities and recommendations.

G. Responsibilities of Supervisors

A supervisor’s responsibilities include helping the student to define the topic of his/her research study; determining whether research internship is to be required for the student’s research study and making arrangements for the student to undertake such an internship if required; setting work targets for any internship to be undertaken by the student; arranging regular meetings with the student at which all matters relating to the student’s research study can be discussed with the supervisor; and monitoring the student’s progress through to completion of his/her research study.

H. Recognition

The fellowship will be recorded in the transcripts of students who have successfully completed the URFP. Awards will be established to recognize outstanding performance.

I. University Research Internship Awards

Research internships awarded under the URFP are generally expected to take place during inter-semester breaks, and if there are alternative arrangements, sound justification should be provided. For overseas research internships, the value of an award is up to HK$40,000 for a period of not less than 8 weeks on a full-time basis to cover economy return airfare and part of overseas accommodation and living costs. For research internships in Hong Kong or the Mainland, the value of an award is HK$15,000 for the same period as stated above. As the research internship awards will be funded across the University, competition for such awards may likely to be keen.

Samples of research proposal outlines from students in the previous round will be posted on the URFP website (http://tl.hku.hk/urfp/) in due course.

J. Application Procedures and Timetable

Completed application form of URFP countersigned by the prospective supervisor and course coordinator of the project/directed studies course have to be submitted to Ms Sarah Leong of the Faculty Office.

Applicants who would like to undertake research internship in summer 2017 in addition to enrolling in project course/directed studies course should also complete Part A to D of the University Research Internship Awards application form and submit it together with a recommendation letter from the internship supervisor, a research proposal of not more than 500 words on one A4 size paper and a plagiarism check report on your University Research Internship Awards application form with the research proposal.

Application forms are downloadable at http://www.scifac.hku.hk/ug/current/ug-research-exchange-others/research/experience. Deadline of application is February 20, 2017 (Monday).
K. **Selection of Participants**

Students will be selected based on the eligibility criteria. An interview might also be conducted.

L. **Notification of Selection Results**

Selection results will be announced by the Working Group on URFP through the Faculty.

M. **Contact Person(s)**

Please contact the following if you have any enquiries about the URFP:

Name: Miss Fran Wong, Executive Officer
Tel. no.: 3917 8194
Email: franwhy@hku.hk
