

A BSc Degree Curriculum

The Faculty of Science offers a number of Science majors leading to the award of a BSc degree.

A. For students admitted to the first year in 2025-26 and thereafter

All students admitted to the first year of the 6901 BSc programme are required to complete at least one Science major out of the 11 regular or 7 intensive Science majors as your primary major for the award of the BSc degree. In addition to the primary Science major, students may take a second major or a minor in a Science or non-Science discipline. Students should note that some non-Science majors and minors may require students to have achieved a minimum academic result before they are allowed to enrol in them.

(a) Curriculum structure of the BSc Degree (240 credits)

(b) A typical BSc curriculum:

To complete the BSc degree curriculum, you have to pass at least 240 credits, equivalent to 40 6-credit courses, normally spread over 4-years of full-time study. A BSc curriculum typically comprises:

(i) UG5:

- A non-credit bearing Academic Communication in English course
- 6 credits in an English in the Discipline course
- 6 credits in a Chinese language enhancement course
- 36 credits in the Common Core Curriculum, comprising at least 6 credits and not more than 12 credits from each Area of Inquiry
- 6 credits in artificial intelligence literacy
- A non-credit bearing course in national education and national security education

(ii) For regular Science major:

- 16 courses for the regular Science major including 2 Science Foundation courses, Disciplinary courses and capstone course (96 credits)

- A choice of 15 courses as elective courses, or to fulfil the requirements of a minor or a second major (90 credits)

OR

For intensive Science major:

- 24 - 25 courses for the intensive Science major including 2 Science Foundation courses, Disciplinary courses and capstone course(s) (144 - 150 credits)
- A choice of 6 - 7 courses as elective courses, or to fulfil the requirements of a minor (36 - 42 credits)

Curriculum requirements (240 credits)

(d) Common Core Curriculum

The Common Core Curriculum is designed to provide key common learning experience for all HKU students and to broaden their horizons beyond their chosen disciplinary fields of study. It focuses on issues that have been, and continue to be, of deeply profound significance to mankind, the core intellectual skills that all HKU undergraduates should acquire and the core values that they should uphold. The Common Core Curriculum is divided into five Areas of Inquiry (Aols): (1) Scientific and Technological Literacy; (2) Arts and Humanities; (3) Global Issues; (4) China: Culture, State and Society; (5) Artificial Intelligence. Students have to pass 36 credits of courses in the Common Core Curriculum, comprising at least 6 credits and not more than 12 credits from each Area of Inquiry with not more than 24 credits being selected within one academic year except where candidates are required to make up for failed credits. Common Core courses should be completed normally within the first three years of the BSc study and cannot be extra taken as free electives.

Please visit <https://commoncore.hku.hk/> for details of the Common Core Curriculum.

(e) Capstone Requirement

Capstone experience is an integral part of the major programme which focuses on integration and application of knowledge and skills gained in the early years of study. Students must complete this for fulfilment of the graduation requirements. The capstone course carries a minimum of 6 credits and is normally taken in the senior years (year 3 or 4) of study. The capstone courses in each Science major may be different but a range of courses (e.g. research project, field work, internship) is offered to suit individual student's needs and interests. Details of capstone courses and the credit requirement for each major can be found in the syllabuses.

(f) UG5(f) Requirement

Students are required to complete a non-credit bearing course under Regulation UG5(f) "UGRE1001 Introduction to the Constitution, the Basic Law and the National Security Law". This is an online course which will adopt a self-directed learning approach. You will have the

flexibility to take this course in any semester throughout your period of study and there is **no need to enrol** in this course on the Student Information System (SIS) during the upcoming course selection and /or add/drop period. Please click "[UGRE1001 Student Guide](#)" to access the student guide for the detailed steps on login. You can also visit this [website](#) for more information about the course.

(g) Artificial Intelligence Literacy

Students are required to complete 6 credits in artificial intelligence literacy, comprising two 3-credit AILT-coded microcredential courses. AILT1001 AI Literacy I must be taken in Year 1, and an additional 3-credit AILT-coded course should be taken in Year 2 or above, but no later than the end of Year 4.

B. For students admitted to the first year in 2024-25 or before

All students admitted to the first year of the 6901 BSc programme are required to complete at least one Science major out of the 14 regular or 7 intensive Science majors as your primary major for the award of the BSc degree. In addition to the primary Science major, students may take a second major or a minor in a Science or non-Science discipline. Students should note that some non-Science majors and minors may require students to have achieved a minimum academic result before they are allowed to enrol in them.

(f) UG5(e) Requirement

With a view to fostering whole-person development of graduates, the Senate has approved an amendment to Regulation UG5 "Requirements for graduation" of the Regulations for First Degree Curricula by the inclusion of the Regulation **UG5(e) successful completion of any other non-credit bearing courses as required** with effect from the academic year 2022-23 (for undergraduate students admitted in 2024-25 and before).

The concerned non-credit bearing course required for completion under Regulation UG5(e) is "Introduction to the Constitution, the Basic Law and the National Security Law". This is an online course which will adopt a self-directed learning approach. You will have the flexibility to take this course in any semester throughout your period of study and there is no need to enrol in this course during the upcoming course selection and /or add/drop period. Please click "[UGRE1001 Student Guide](#)" to access the student guide for the detailed steps on login. You can also visit this [website](#) for more information about the course.

Please note that for undergraduates admitted in 2024-25 or before and graduating in 2022-23 and thereafter, it is a graduation requirement to complete and pass the above non-credit bearing course under UG5(e) plus other requirements under UG5(a) - (d) as well as other curriculum requirements.

The course code UG5E1001 has been changed to UGRE1001 effective from September 1,

2025. Please note that UG5E1001 and UGRE1001 are identical courses, and there is no change in the course content and learning outcomes. For undergraduate students admitted in 2024-25 and before, UG5E1001 and UGRE1001 fulfill the graduation requirement under Regulation UG5(e) of the Regulations for First Degree Curricula.

- C. For students transferred to the second year in 2025-26, students transferred or admitted directly to the third year in 2025-26 and 2026-27, and students transferred to the fourth year in 2026-27**

Regarding the completion of BSc curriculum, please refer to the respective section of the “BSc Graduation Requirements and Honours Classification” for details.
