A choice of **11 Science Majors** to suit your interests and career aspirations

Biochemistry

Biological Sciences

Chemistry

Earth System Science

Ecology & Biodiversity

Environmental Science

Food & Nutritional Science

Geology

Mathematics

Molecular Biology & Biotechnology

Physics

What our students say

Ashley LI •

BSc graduate (Major in Biological Sciences)

Associate Degree of Science in Biology from

Hong Kong Community College, The Hong Kong Polytechnic University

I have been given many practicals to conduct laboratory experiments and get familiar with different technologies in biological sciences. Also, the outdoor field course I took allowed me to gain hands-on experience on field sampling, and to investigate the influence of abiotic factors on species.

• **Richie Ka Wai PUN**

BSc graduate (Major in Chemistry)

Associate Degree of Science in Chemistry from

HKU SPACE Community College

I got many opportunities to apply my knowledge and gain hands-on experience in research. I learnt advanced laboratory and research skills, had a better understanding of the field of Chemistry research, and gained insight into how research is conducted. These skills, knowledge and experiences are invaluable and definitely will help to achieve my future goal.

IMPORTANT DATES

2026 **Sept**
Online application system opens

Nov
First round evaluation starts

2027 **March**
First round of offers

Jul onwards
Second round of offers
