Master of Science in the field of
APPLIED GEOSCIENCES
A springboard for a robust and fruitful career

Apply now for entry in September 2022
Two themes are accredited by the Geological Society of London
• Engineering Geology Theme*
• Engineering Geology with HKIE Approved Courses Theme*
• Offers courses which graduates in Earth Sciences or Geology would need to meet the entry requirements of the HKIE in the Geotechnical Discipline

* Applications for Chartered Geologist or Scientist (CGeol/CSci) with an accredited MSc benefit from an accelerated route, subject to satisfying all other criteria.

#4 Asia Rankings 2021

Top-notch Scientists in the Faculty
Clarivate Analytics’ Essential Science Indicators 2020

16.5% of our professoriate staff are the world’s Top 1% scholars

Engineering Geology Theme

Focus
◊ Application of geology and mechanics in geotechnical engineering
◊ Development of geological engineering skills

Coverage
◊ Offers 11 of the additional courses which graduates in Earth Sciences or Geology would need to meet the entry requirements of the Hong Kong Institution of Engineers (HKIE) in the Geotechnical Discipline

Engineering Geology with HKIE Approved Courses Theme

Coverage
◊ Offers all 14 of the additional courses which graduates in Earth Sciences or Geology would need to meet the entry requirements of the HKIE in the Geotechnical Discipline

Composition fees: HK$145,000 (subject to approval)

Students are required to pay Caution Money (HK$350, refundable on graduation subject to no claims being made) and Graduation Fee (HK$350)

Programme duration
Full-time: 1 year
Part-time: 2 years

Study load
Credits: 66 / 69 credits
Learning hours: 1,440 or 1,500 hours
(including 360 hours for the project and contact hours of 400 / 415 hours)

Remarks:
• The 2-year programme imposes a heavy workload on a part-time student in a full-time job
• An annual MSc workload of 720 hours is approximately 40% of the working hours of a full-time job

Class schedule
• Teaching: mainly on weekday evenings
• Field and laboratory work: weekends
• Students are expected to study year-round and teaching is also conducted during Reading Weeks and Summer Semester

Medium of instruction
English

Assessment
Mostly coursework and written examination

#The fee shall generally be payable in 2 instalments over 1 year for full-time and 4 instalments over 2 years for part-time
Professional recognition
◊ The two themes offered in 2021 are accredited by the Geological Society of London which awards the qualification of Chartered Geologist
◊ Applicants with an accredited MSc can apply for Chartered Geologist with fewer years of working experience
◊ 14 courses of the MSc are approved by the HKIE, which are the required additional courses for Earth Sciences or Geology graduates for admission into the HKIE in the Geotechnical Discipline

Network and transferable skills
◊ The chance to learn from top professors and leading practitioners from industry
◊ Technical knowledge and professional skills you can apply anywhere
◊ An internship in industry for selected full-time students
◊ A valuable network of industry connections, career advice and inspiration

Career development
Employers of recent MSc graduates include: Airport Authority, Arup, Arcadis, Atkins, Dragages, Fugro, Gammon, Geotechnical Engineering Office, Jacobs, MTRC, Meinhardt and Vibro

Scholarships and financial support
◊ Association of Geotechnical and Geoenvironmental Specialists (Hong Kong) Scholarship
  ◊ This $10,000 scholarship is awarded annually on a merit basis
◊ Government’s Extended Non-means Tested Loan Scheme (for local students only)
◊ Taufik Ali Memorial Scholarships for Postgraduate Studies
  ◊ Persons of the Muslim faith born in Hong Kong or Penang are eligible to apply
  ◊ The scholarship may cover tuition fees and living allowance on a case-by-case basis
  ◊ Contact Professor Malone for details
  ◊ For more details: [https://www.scholarships.hku.hk/Scholarships/detail/255](https://www.scholarships.hku.hk/Scholarships/detail/255)

Prizes
Halcrow Prizes are awarded to the Best Student and the Best Dissertation

Courses reimbursable by the Continuing Education Fund (CEF)
◊ GEOS7012 Site investigation and engineering geological techniques
◊ GEOS8101 Engineering geology and geotechnical design
◊ GEOS8102 Rock engineering and geomaterials

Host
Department of Earth Sciences
Since 1995 the Department has focused primarily on the geology of Asia and the Asia Pacific Regions, carrying out cutting-edge frontier research and dealing with fundamental scientific challenges of societal relevance.

Our work on applied geosciences is of importance, considering the highly urbanised setting of Hong Kong and the region. We have made significant contributions in hydrogeology, rock mechanics, engineering geology, geophysics and applied geochemistry.

Engineering geologists who strive to improve their performance in professional work
Earth Sciences or Geology graduates who wish to fulfill the entry requirements of HKIE in the Geotechnical Discipline
Engineers and scientists wanting to advance their understanding of geology and the work of the engineering geologist

Hear from our graduate
At HKU I got the chance to learn from world-class professors who have abundant working experience and are willing to share their knowledge. My MSc included an internship in Arup and on graduating I got a job in Hong Kong with Fugro.

12 18 24 12 credits

66 credits core courses (for Geologists)

Engineering Geology theme (66 credits)

Core courses

GEOS7010 Geology principles and practice (6 credits), for non-geologists
GEOS7011 Advanced geology of Hong Kong (6 credits), for geologists
GEOS7033 Geology of Hong Kong (6 credits), for non-geologists
GEOS7012 Site investigation and engineering geological techniques (6 credits)
GEOS7015 Rock mechanics (3 credits)
GEOS7016 Soil mechanics (3 credits)
GEOS7020 Project Part I (6 credits)
GEOS7021 Geological fieldwork I (3 credits), for non-geologists
GEOS8021 Geological fieldwork II (3 credits), for geologists
GEOS8001 Hydrogeology (3 credits)
GEOS8002 Professional practice in applied geosciences (3 credits)
GEOS8003 Seminars on unforeseen ground conditions, geotechnical and environmental failures (3 credits)
GEOS8020 Project Part II (12 credits)
GEOS8101 Engineering geology and geotechnical design (6 credits)
GEOS8102 Rock engineering and geomaterials (6 credits)
GEOS8104 Natural hillside landslide and hazard studies (3 credits) (To be confirmed)
GEOS8204 Basic structural mechanics and behaviour (3 credits)

Elective course

GEOS7022 Course of directed studies (3 credits)

Core courses for students with a first degree in Geology or a related subject: GEOS7011, 7012, 7015, 7016, 7020, 8001, 8002, 8003, 8020, 8021, 8101, 8102, 8104, 8204 – 66 credits. GEOS7022 may be substituted for GEOS8204.

Core courses for students whose first degree is not in Geology or a related subject: GEOS7010, 7012, 7015, 7016, 7020, 7021, 7033, 8001, 8002, 8003, 8020, 8101, 8102 – 66 credits.

Remarks:
1. Certain courses may be accepted as electives at the discretion of the Programme Director
2. The programme structure will be reviewed from time to time and is subject to change
3. To be eligible for the award of the MSc in the field of Applied Geosciences, a student shall complete all core courses and total credits prescribed in a selected theme

* For geologists
† Graduates in Civil Engineering cannot take this course for credits
Δ Not a core course for non-geologists and full-time students taking course GEOS7022

### 69 credits core courses

**Engineering Geology with HKIE Approved Course Theme (69 credits)**

**Core courses**
- GEOS7012 Site investigation and engineering geological techniques (6 credits)
- GEOS7015 Rock mechanics (3 credits)
- GEOS7016 Soil mechanics (3 credits)
- GEOS7020 Project Part I (6 credits)
- GEOS7024 Management (3 credits)
- GEOS8001 Hydrogeology (3 credits)
- GEOS8002 Professional practice in applied geosciences (3 credits)
- GEOS8003 Seminars on unforeseen ground conditions, geotechnical and environmental failures (3 credits)
- GEOS8020 Project Part II (12 credits)
- GEOS8101 Engineering geology and geotechnical design (6 credits)
- GEOS8102 Rock engineering and geomaterials (6 credits)
- GEOS8204 Basic structural mechanics and behaviour (3 credits)
- GEOS8205 Mathematics I (6 credits)
- GEOS8206 Mathematics II (6 credits)

### Remarks:
1. The programme structure will be reviewed from time to time and is subject to change.
2. To be eligible for the award of the MSc in the field of Applied Geosciences, a student shall complete all core courses and total credits prescribed in a selected theme.
**GEOS8002 Professional practice in applied geosciences**
An examination of issues in professional practice in applied geosciences; including regulation of practice, professional ethics and law, contracts and risk management.

**GEOS8021 Geological fieldwork II**
Self-directed study in the field over a 6-month period leading to the production of maps, field sheets, narrative accounts and other geological records for assessment. The fieldwork may be undertaken in association with the excursions of the Department of Earth Sciences, the local learned societies or independently.

**GEOS8101 Engineering geology and geotechnical design**
An examination of civil engineering design methodology and the application of soil mechanics theory and empiricism in geotechnical design. Emphasis is given to soil slopes and embankments, earth pressure and retaining structures; and shallow and deep foundations.

**GEOS8102 Rock engineering and geomaterials**
This course gives a brief introduction to the design methodology and systems approach in rock engineering, focusing on the analysis of engineering geological data in designing rock structures. Uses of rock mechanics input, empirical classifications in analysis, design of rock slopes, tunnel excavation and support systems are illustrated with cases.

**GEOS8204 Basic structural mechanics and behaviour**
The course covers most of the following topics: Behaviour of structural members subjected to tension, compression, bending, shear and torsion. Buckling of compression members. Statically determinate and indeterminate structures; including the concept of redundancy of structural members. Load transfer mechanisms of structural systems including foundations and shoring systems. General behaviour and basic concepts in design of reinforced concrete members. Structural design of foundations and retaining walls.

See the prospectus for full information of the courses: https://www.earthsciences.hku.hk/f/upload/1096/Applied%20Geoscience_Prospectus_2022%20updated.pdf
We design the courses to strike a balance between basic scientific principles, applications and intellectual developments. Teaching is conducted by top professors and leading practitioners from industry. This is an MSc programme to prepare students for a robust and fruitful career. 

Programme Director
Dr Louis N Y WONG
BSc HKU; PhD MIT; FGS
Admissions

Requirements

Applicants should possess a Bachelor’s degree with First or Second Class Honours (or GPA equivalent) in Science, Engineering or a related subject.

How to apply

Application opens in **October 2021**
Non-local applications deadline: **12 noon (HKT), April 29, 2022**
Local applications deadline: **12 noon (HKT), May 31, 2022 (extended)**
Full-time students wishing to take internship should apply early

Online application
