1. Background

Capstone experience is an integral part of the BSc (Actuarial Science) programme which focuses on integration and application of knowledge and skills gained in the early years of study.

Internship is considered as a form of capstone experience recognized to fulfill the capstone requirements for the BSc (Actuarial Science) programme offered in the Faculty of Science (The Faculty).

This course is a communication-intensive course (CiC).

Please visit CiC website (<https://cics.hku.hk/for-students/benefits-for-students/>) for further information.

2. Learning Objectives of Internship

Through the internship, students are expected:

- to gain working experience in a real-world workplace environment
- to have diverse learning experience
- to integrate theory and practice, and to understand limitations of their current knowledge
- to work in a team and to collaborate with people with diverse background
- to broaden their social and cultural experience, and to develop their social and cultural values
- to prepare for their life-long career

3. General Arrangements

A. Internship Course

Students who wish to engage in internship must enroll in an internship course, STAT4767 Actuarial Science Internship, offered by the Department of Statistics and Actuarial Science (the Department) in order to have their work recognized to fulfill the capstone requirements of the BSc (Actuarial Science) programme in the 4-year curriculum. Alternatively, students may choose to skip the internship course if students wish to fulfill the capstone requirements in other ways.

If students take the second major in Science and the capstone experience in the BSc (Actuarial Science) programme requires the integration or application of knowledge from both the programme and the second major, students may apply for the exemption from taking a Capstone course in the second (Science) major. Students have to complete the form “Application for exemption from taking a capstone course in the second (Science) major” available on the Faculty of Science’s website and seek the written endorsement from the Programme coordinator of BSc (Actuarial Science) programme and the Major coordinator of the second major.

B. Types of Internships

i. Internal (within the University)

- The student works on a project or various tasks as instructed by a staff member from the Department and is supervised by this staff member (the Teacher Supervisor).

ii. External (outside the University)

- The student works in an external agency related to the major of study and is supervised by both staff of that agency (the External Supervisor) and the Department (the Internal Supervisor).

C. Number of Credits

6 credits, graded on 'Pass with Distinction, Pass, Fail basis'. The result of the course STAT4767 would not be counted in the calculation of the CGPA.

D. Nature of Work

STAT4767 is a discipline specific internship course, the work carried out by the student in the internship must be relevant to Actuarial Science. Internship Course Coordinators and Internal Supervisors have the responsibility to ensure that the work carried out will meet the learning objectives of the internship course.

E. Duration and Time of Internship

The length of internship as specified in the course description of the internship course STAT4767 is at least 6 months or 120 working days (Appendix A). A working day is defined as a day that the student is working, regardless of the hours of work. It includes office hours, related work preparation, field trip or other forms approved by the supervisor(s). It should be allocated in term-time (semester 1 or 2) and the mode of internship must be full-time, according to the requirement and the nature of work as specified by the external agency or the Department. Students who would like to take full-time internship during term time (semester 1 or 2) should apply for leave of absence, and the enrollment of the course will be shown in another semester after the leave period.

F. Requirement and Assessment

- i. Student may have to attend a briefing session(s) about the job details and work ethics arranged by the Department or the external agency before the internship. Students may also receive training and assessment in conflict resolution and workplace email.
- ii. Student should submit a registration form of internship course (Appendix B) to the

Internship Course Coordinator BEFORE the commencement of internship for approval following the schedule set by the Department.

- iii. A 25-minute oral presentation (20 min presentation plus 5 min Q&A) about the job nature, knowledge and skills related to Actuarial Science, self-reflection and other contents (if appropriate) should be conducted, followed by a written report of not less than 1,500 words submitted to the Department after the internship has been completed.
- iv. The video component (duration: 2-5 minutes) featuring a roleplay case study video focusing on workplace/colleague conflicts and their solution. Students are required to produce an original video production that includes scripts, content, and videos based on the challenges faced during their internship experiences. The video will be assessed based on Production content and Narrative skills.
- v. In either internal or external internship, the immediate supervisor should complete an evaluation form for assessing the performance of the student.

G. Eligibility of Students

As the internship course STAT4767 is a level 4 course and is considered as a form of capstone experience to fulfill the capstone requirements, students should have passed at least 4 advanced courses (24 credits with codes starting with 3 or above) including STAT3901 Life Contingencies I in their BSc (Actuarial Science) curriculum before the commencement of the internship. Normally students are not allowed to take any internship earlier than the semester 1 of year 3. That is, the earliest time that students can take part in a 6-month full-time actuarial internship is June after the completion of their year 2 (for the eligibility to enroll in course STAT4767 in the semester 2 of year 3, following the leave of absence in semester 1 of year 3). Normally applicants will be selected by the Department or the external agency based on their academic performance, extra-curricular activities record, interview performance and other personal qualities. Only successful candidates can enroll in STAT4767.

H. Sources of Internship Positions from External Agency

i. From the Faculty/Department

- The Faculty/Department may have already established the connection with some external agencies. Students should check the announcement from the Faculty/Department and observe the procedure and deadline of application.

ii. Direct approach by the student

- Students may contact external agencies on their own and provide details for the approval of Internship Course Coordinator before they start the internship. Prior approval by the

Internship Course Coordinator **MUST** be obtained before commencement of the Internship, and **no post-application is allowed**.

Tips for students

1. *As the places offered by the Department are limited and competitive, students are strongly recommended to actively approach potential agencies for internship opportunities. Both internship opportunities within the Department and external agencies are encouraged.*
2. *The schedule for applying actuarial internship is tight. Students should make preparation for application and interview ahead of time.*

I. Expectation on Student in Practice

Students should follow the regulations of the internship agency and instructions from the supervisors. If any irregularity exists, student should immediately report to the External Supervisor and/or Internship Course Coordinator/Internal Supervisor.

J. Role & Responsibility of Supervisor

i. Teacher Supervisor of Internal Internship and External Supervisor of External Internship

The supervisors are expected to

- supervise, and offer timely opinion and comment for students.
- complete an evaluation form (Appendix C) about the student at the end of the internship.
- give overall feedback, based on the evaluation form, to individual student after the internship so that the student may identify his strengths and weaknesses as an employee in the real world and seek further improvement.

ii. Internal Supervisor of External Internship

If time and situations permit, the supervisor is expected to

- visit the student or interview the student by phone to have an understanding of his performance and working environment with the permission from the external agency;
- give overall feedback, based on the evaluation form, to individual student after the internship so that the student may identify his strengths and weaknesses as an employee in the real world and seek further improvement.

K. Enrollment

The Faculty will only recognize students who have formally enrolled in the internship course STAT4767 to fulfill the capstone requirement via internship. Due to the nature of the course, the Faculty will not provide the internship course for students to enroll during the on-line course selection period. Students who wish to enroll in the internship course should submit the

registration form of internship course to the Department BEFORE the commencement of the internship. The Department will then provide the enrollment information to the Faculty. Under normal circumstances, dropping of the internship course after submitting the registration form is not allowed.

L. Timeline of Internship

The following is a suggested schedule of events for internship for first, second and summer semesters.

i. Full-time Internship in the first semester (including the summer semester of the previous academic year) (July – December):

Time	Event
May – December in previous year*	Announcement of internship positions starts
After submitting applications	External Interview - Employers will contact students directly for interviews unless instructed otherwise
	Offer Extended - Employers will contact students directly for any job offers unless instructed otherwise
After offers extended from employers	Application of Leave of Absence (to the Faculty) - Student may be required to submit offer letters, contracts or other relevant documents
	Internal Interview (when notified by the Department) - It is conducted by the Department and students will be notified to attend
Before the start date of internship (January – May)*	Registration of internship course STAT4767 - Student needs to submit registration form for STAT4767 (Appendix B or Faculty's website) - Student may be required to submit CV and cover letter to the Department - Student must ensure completion of 24 credits of advanced level courses (including STAT3901) from the BSc (Actuarial Science) curriculum prior to the commencement of internship**
June – July*	Internship starts**
	Submit the registration form again if there is any update about the real situation <u>within the first two weeks</u> of internship
End of July*	Department to submit enrollment information to the Faculty
October – December*	The Teacher Supervisor and External Supervisor complete the Evaluation Form (optional for Internal Supervisor of external internship)
	The Internship Course Coordinator collects the Evaluation Form from the external agency
Semester 2 (March – April)*	An oral presentation and submission of a written report and video production
Semester 2 (Early June)*	Department to submit students' grade to the Faculty (Actual enrollment will be shown in Semester 2)

- * All dates are for reference only, the actual dates will depend on market situation, employers' own timeline and other external factors.**
- ** It is acceptable to commence internship even if the grades of a portion of the 24 credits of advanced level courses have not been officially released, provided it can be shown that the student has already passed the corresponding course and other associated course requirements.**

ii. Full-time Internship in the second semester (or second semester plus summer semester) (January–June):

Time	Event
December – May in previous academic year*	Announcement of internship positions starts
After submitting applications	External Interview - Employers will contact students directly for interviews unless instructed otherwise
	Offer Extended - Employers will contact students directly for any job offers unless instructed otherwise
After offers extended from employers	Application of Leave of Absence (to the Faculty) - Student may be required to submit offer letters, contracts or other relevant documents
	Internal Interview (when notified by the Department) - It is conducted by the Department and students will be notified to attend
Before the start date of internship (July – November)*	Registration of internship course STAT4767 - Student needs to submit registration form for STAT4767 (Appendix B or Faculty’s website) - Student may be required to submit CV and cover letter to the Department - Student must ensure completion of 24 credits of advanced level courses (including STAT3901) from the BSc (Actuarial Science) curriculum prior to the commencement of internship**
December – January*	Internship starts**
	Submit the registration form again if there is any update about the real situation <u>within the first two weeks</u> of internship
End of April*	Department to submit enrollment information to the Faculty
March – June*	The Teacher Supervisor and External Supervisor complete the Evaluation Form (optional for Internal Supervisor of external internship)
	The Internship Course Coordinator collects the Evaluation Form from the external agency
Semester 1 of the next academic year (September – October)*^	An oral presentation and submission of a written report and video production
Semester 1 of the next academic year (Mid-November)*	Department to submit students’ grade to the Faculty (Actual enrollment will be shown in semester 1 of the next academic year)

- * All dates are for reference only, the actual dates will depend on market situation, employers' own timeline and other external factors.**
- ** It is acceptable to commence internship even if the grades of a portion of the 24 credits of advanced level courses have not been officially released, provided it can be shown that the student has already passed the corresponding course and other associated course requirements.**
- ^ For those final year students with the pending result in STAT4767 for graduation, if they wish to graduate in time, their grades in STAT4767 should be submitted to the Faculty Office by mid-September so as to meet the timeline for submission of graduation data to Registry.**

iii. Full-time Internship in the first semester and second semester (July – December and January – June):

Time	Event
May – December in previous year*	Announcement of internship positions starts
After submitting applications	External Interview - Employers will contact students directly for interviews unless instructed otherwise
	Offer Extended - Employers will contact students directly for any job offers unless instructed otherwise
After offers extended from employers	Application of Leave of Absence (to the Faculty) - Student may be required to submit offer letters, contracts or other relevant documents
	Internal Interview (when notified by the Department) - It is conducted by the Department and students will be notified to attend
Before the start date of internship (January – May and July – November)*	Registration of internship course STAT4767 - Student needs to submit registration form for STAT4767 (Appendix B or Faculty's website) - Student may be required to submit CV and cover letter to the Department - Student must ensure completion of 24 credits of advanced level courses (including STAT3901) from the BSc (Actuarial Science) curriculum prior to the commencement of internship**
June – July and December – January*	Internship starts**
	Submit the registration form again if there is any update about the real situation <u>within the first two weeks</u> of both internships
End of November*	Department to submit enrollment information to the Faculty
October – December and March – June*	The Teacher Supervisor and External Supervisor complete the Evaluation Form (optional for Internal Supervisor of external internship)
	The Internship Course Coordinator collects the Evaluation Form from the external agency
Semester 1 of the next academic year (September – October)*	An oral presentation and submission of a written report and video production
Semester 1 of the next academic year (Mid-November)*	Department to submit students' grade to the Faculty (Actual enrollment will be shown in Semester 1)

- * All dates are for reference only, the actual dates will depend on market situation, employers' own timeline and other external factors.**
- ** It is acceptable to commence internship even if the grades of a portion of the 24 credits of advanced level courses have not been officially released, provided it can be shown that the student has already passed the corresponding course and other associated course requirements.**

iv. Part-time Internship:

Part-time internship is not eligible for the enrollment of STAT4767.

However, students can consider undertaking part-time internships as long as they do not violate the University's regulations and the immigration regulations/requirements of the Government of the Hong Kong Special Administrative Region.

4. Special Issues

A. Legal Issue

Students should double check their legal status to work in Hong Kong and in compliance with HKSAR Immigration Department's regulations.

B. Salary

Salary given to students for their internship work may encourage students to take the internship more seriously. However, it is not compulsory. Students should reach an agreement with the employers and understand all the terms of the contract prior to the commencement of the internship.

Specified student interns and work experience students who are exempted from the statutory minimum wage ordinance are required to complete form for confirmation of "student intern" or "work experience student" status under the Minimum Wage Ordinance for the employers.

For details, please refer to the Labour Department website (https://www.labour.gov.hk/eng/public/content2_smw.htm).

C. Insurance

All full-time undergraduate students of the University are already covered by the University's insurance scheme during the internship period.

D. Leave Application

i. Before internship

If the internship takes place as a full-time position during the first or second semester, students have to apply to **the Faculty** for leave of absence by completing the online form 'SF416 - Leave of Absence' via the [Science Online Application Submission System \(OASS\)](#) with the submission of a copy of contract in advance.

ii. During internship

If students have to take leave during the internship, they should follow the procedures as specified by the employer or supervisor for completing various course requirements of STAT4767.

STAT4767 Actuarial science internship (6 credits)				
Offering Department	SCDS (Department of Statistics and Actuarial Science)		Quota	
Course Co-ordinator	Dr E A L Li, SCDS (Department of Statistics and Actuarial Science) < ericli11@hku.hk >			
Teachers Involved	(Various teachers as the assessors of oral presentations and written reports, Statistics & Actuarial Science)			
Course Objectives	This course is offered to actuarial science students who take on a 6-month full time or similar internships. The objective is for a student to complete this course as a project based on his/her internship.			
Course Contents & Topics	This course will include a written report which should emphasize important working/ educational experiences encountered by the student during his/her internship. In many situations, this would mean a report of the project(s) that the student has been involved in during his/her internship. The course will also include a conflict resolution role-play and email writing in the workplace.			
Course Learning Outcomes	On successful completion of this course, students should be able to:			
	CLO 1	gain practical experiences during internship		
	CLO 2	describe basic actuarial practices learned during the internship in a written report		
	CLO 3	explain how actuarial theories learned in University can be applied in practice in a written report		
	CLO 4	successfully resolve conflicts in the workplace through oral negotiation strategies		
	CLO 5	effectively communicate in the workplace through email		
Pre-requisites (and Co-requisites and Impermissible combinations)	Pass in at least 24 credits of advanced level disciplinary core/elective courses in BSc(Actuarial Science) programme including STAT3901; and This capstone course is only for BSc(Actuarial Science) students; and is mutually exclusive with STAT4711. The earliest that a student is allowed to take this capstone course is their year 3 study. Only for students admitted in 2024-25 or before.			
Course Status with Related Major/Minor /Professional Core	2U000C00 Course not offered under any Major/Minor/Professional core 2024 BSc in Actuarial Science (Disciplinary Elective) 2023 BSc in Actuarial Science (Disciplinary Elective) 2022 BSc in Actuarial Science (Disciplinary Elective) 2021 BSc in Actuarial Science (Disciplinary Elective)			
Course to PLO Mapping	2024 BSc in Actuarial Science < PLO 1,2,3,4,5,6 > 2023 BSc in Actuarial Science < PLO 1,2,3,4,5,6 > 2022 BSc in Actuarial Science < PLO 1,2,3,4,5,6 > 2021 BSc in Actuarial Science < PLO 1,2,3,4,5,6 >			
Offer in 2025 - 2026	Y	1st sem	2nd sem	Examination No Exam
Offer in 2026 - 2027	Y			
Course Grade	Distinction/Pass/Fail			
Grade Descriptors	Distinction	Demonstrates excellent ability in applying knowledge to solve problems in the workplace. Demonstrates excellent performance in handling and carrying out the work required in the job or assigned by supervisor(s). Establishes highly effective collaboration and communication with supervisor(s), colleagues, and clients in the job. Successfully fulfils the requirements set out in the Course Description regarding working hours, with excellent performance in written and oral report, and excellent evaluation by supervisor(s), etc.		
	Pass	Able to apply knowledge to solve problems in the workplace. Successfully handles and carries out the work required in the job or assigned by supervisor(s). Establishes effective collaboration and communication with supervisor(s), colleagues, and clients in the job. Successfully fulfils the requirements set out in the Course Description regarding working hours, written and oral report, and evaluation by supervisor(s), etc. Students demonstrating excellent performance in the above would be awarded a grade of "Distinction".		
	Fail	Very limited or no ability to solve problems in the workplace. Fails to handle or carry out the work required in the job or assigned by supervisor(s). Fails to establish effective collaboration or communication with supervisor(s), other colleagues, or clients in the job. Fails to satisfy the requirements set out in the Course Description regarding working hours, written and oral report, or evaluation by supervisor(s), etc.		
Communication-intensive Course	Y			
Course Type	Internship			
Course Teaching & Learning Activities	Activities	Details		No. of Hours
	Internship work	it is expected that students are to work at least 6 months or 120 working days		960.0
Assessment Methods and Weighting	Methods	Details	Weighting in final course grade (%)	Assessment Methods to CLO Mapping
	Oral presentation	oral presentation and workshop on effective communications	70.0	1,2,3,4,5
	Written report	written report	30.0	1,2,3
Required/recommended reading and online materials	NIL			
Course Website	http://moodle.hku.hk			
Additional Course Information	Despite no weighting for this assessment component, the completion of the employer's evaluation form by the employer/direct supervisor is required for passing the course. Satisfactory completion of this course can be counted towards the Capstone requirement. Details of internship will be recorded on the student's transcript. This course will be assessed on "Pass/Fail" basis. Students who are interested to enrol in this course should contact the Department to obtain the approval. Enrolment of this course is not conducted via the online course selection system and should be made through the relevant Department/School office after approval has been obtained from the course coordinator.			

STAT4767 Actuarial Science Internship

Please return this form to the Department in person or by email at ugdoc@hku.hk, or by fax at 2858-9041 PRIOR to the start date of the internship. Late applications will NOT be accepted.

Employer's Evaluation Form for Student Intern

Dear Employer/Supervisor,

Your feedback to our students is important not only to the students but also to our study programme.

Please complete this evaluation form for each student by the end of the internship (mark "Final Evaluation" below).

An optional interim review could be conducted if you have concerns with the student's performance during the internship (mark "Interim Evaluation" below).

Please return the completed form directly by email at saas_ugemp@hku.hk; or by fax at 2858 9041.

Thank you very much for taking part in this evaluation.

Frequently Asked Questions

1. Are there any pre-requisite requirements for the internship course STAT4767 and when can I take the internship course?

You should have passed at least 4 advanced courses (24 credits with codes starting with 3 or above) including STAT3901 Life Contingencies I in your BSc (Actuarial Science) curriculum **before** the commencement of the internship.

Normally students are not allowed to take any internship earlier than the semester 1 of year 3. That is, the earliest time that students can take part in a 6-month full-time actuarial internship is June after the completion of their year 2 (for the eligibility to enroll in course STAT4767 in the semester 2 of year 3, following the leave of absence in semester 1 of year 3).

2. How can I find out the internship opportunities?

Students should be aware of the announcement from the Faculty/Department and observe the procedure and deadline of application.

3. Can I find the internship by myself for the internship course?

Yes, students may contact external agencies and provide details for the approval of Internship Course Coordinator before they start the internship. However, prior approval by the Internship Course Coordinator must be obtained **before** the commencement of the internship.

4. Can I ask my department to recognize my outside job experience as internship if later on I found that the job duties are very relevant to Actuarial Science?

No, post-application is NOT allowed for the internship course. Please also refer to Q3.

5. How long would be the internship period?

In general, students have to work full-time for 6 months in order to qualify to enroll in STAT4767. Part-time internship is NOT eligible for the enrollment of STAT4767. However, students can consider undertaking part-time internships as long as they do not violate the University's regulations and the immigration regulations/requirements of the Government of the Hong Kong Special Administrative Region.

6. How can I pass the internship course?

Assessment will include 3 elements: written report, oral presentation, video production, and evaluation from your workplace supervisor. Please refer to Part 3(F) of the Guidelines.

7. Will I get paid for my internship?

You may or may not get paid for your internship and if you get paid, the amount will vary between companies.

8. Is there any insurance coverage for my internship?

All full-time undergraduate students of the University are covered by the University's insurance scheme during the internship period. Some companies would arrange the signing of employment contract for internship so that students can also be covered by their employees' compensation insurances.

9. What should I notice if I want to take full-time internship during the 1st or 2nd semester?

You should apply for leave of absence if you would like to take full-time internship during the 1st or 2nd semester. The enrolment of the course will be shown in another semester after your leave

period. Section L – Timeline of internships shows the listing of course enrollment for different periods and modes of internship.
