

Master of Science in ENVIRONMENTAL MANAGEMENT

Managing environmental issues in multifaceted contexts

The Programme

- Either 1-year full-time or 2-year part-time
- A multi-disciplinary coursework programme with most teaching on weekday evenings
- An integrated overview of environmental management, addressing both major environmental problems and their social, legal, engineering, ecological and economic contexts
- Course materials focus on Hong Kong, but with a strong international and comparative dimension
- Courses taught by ecologists, engineers, planners, economists, lawyers, and environmentalists from HKU and practitioners in the field
- Accredited for direct application to the Graduate IEMA membership and BEAM Affiliate qualification

Host
School of Biological Sciences

Admissions Requirements

- A Bachelor's degree in any field
- Work experience is useful but not essential
- Fulfil the University Entrance Requirements
