

- 1.5 years full-time, to deepen knowledge and key skills set
- Applications of chemical technologies in health and materials are highlighted, with particular focus on drug discovery and the development of novel materials.
- The contents cover a wide range of subjects from drug design and synthesis, quality assurance, modern analysis techniques, to energy harvesting, conversion and storage, and technology transfer.
- Fostering an innovative mindset, with advanced transferable skills and ample opportunities for hands-on experience.

Admissions Requirements

- A Bachelor's degree in Science or Engineering
- Preference will be given to those specialising in related science or engineering disciplines (e.g. chemistry, biochemistry, material science, biotechnology, medical science, health science, analytical science, chemical engineering, environmental engineering, materials or mechanical engineering)
- Fulfil the University Entrance Requirements

Application Deadline

Non-local applicants: 12:00 noon (GMT +8), April 30, 2025 Local applicants: 12:00 noon (GMT +8), June 30, 2025
