

**NEW**  
Programme

# Master of Science in **INTEGRATIVE MARINE ECOLOGY & CONSERVATION**

*Safeguarding our oceans for a sustainable future through integrated marine ecology and conservation practices*

## The Programme

- Full-time: 1 year
- Designed to empower environmental practitioners specialised in ocean science and policy
- Emphasises applications of marine ecology and conservation principles in real-world scenarios, focusing on biodiversity, fisheries, conservation strategies and sustainable practices
- Curriculum covers a broad spectrum of subjects, including marine biodiversity, seafood trade dynamics, biogeochemistry processes, conservation methodologies, mariculture techniques and restoration practices
- Aims to cultivate critical thinking, problem-solving skills and practical experience through hands-on projects and interactions with industry experts

**Hosts**  
School of Biological Sciences &  
The Swire Institute of Marine Science

## Admissions Requirements

- A Bachelor's degree in any field
- Should possess knowledge of basic biology, ecology and chemistry with a record of relevant coursework
- Fulfil the University Entrance Requirements

## Application Deadline

Non-local applicants: 12:00 noon (GMT +8), April 30, 2025  
Local applicants: 12:00 noon (GMT +8), June 28, 2025

\*Non-local students are advised to apply as early as possible to ensure completing all entry visa requirements prior to the commencement of the programme.
